Designed for true indulgence, the Sunseeker Predator 75 offers every comfort for stylish enjoyment of every moment on the water. Matching modern materials and construction techniques to the heritage of Sunseekers race-bred hull design, guarantees that the Predator 75 delivers an outstanding performance. As befits a yacht that's designed for fun, the main deck offers maximum opportunity for full enjoyment. Beneath the opening hardtop, the twin helm and passenger seats in the cockpit allow full-on pleasure for up to six. To make the most of the outdoor life, there is comfortable cockpit seating (with space for up to eight people around the folding dining table), and a full-length sunlounger beneath which there is a garage for storing a jet bike or tender. The interior is as spacious as the external appearance promises. The saloon offers seating for eight in a large and comfortable air conditioned lounge, with a conveniently offset bar and galley. And for a boat of such performance, the level of accommodation for up to six people is remarkable.
